

A better way  
to get the  
care you need

## Health Savings Accounts for Telehealth Services

The CARES Act, which passed a few weeks ago allows a high-deductible health plan (HDHP) with a health savings account (HSA) to cover telehealth services prior to reaching the deductible.

Virtual care has never been more important than it is at this very moment. By eliminating the requirement of satisfying your deductible first before the plan pays for telehealth services, you can have access to a doctor 24/7/365 without the financial burden. Call A Doctor Plus gives you and your family 24/7 ACCESS to doctors and other industry professionals from the convenience of your phone or computer.

### Telemedicine:

- Can be purchased by anyone at anytime
- Is available 24/7/365
- Provides service with no copays or deductibles
- Is available to individuals and families
- Is provided at one low monthly price paid for via credit card or bank draft
